

# VtX Clamp

# DwX Double Wire Clamp

DwX is our high quality double wire clamp, available in both zinc plate and stainless steel.

This clamp is producing quite high clamping force due to the double wire, and excellent to use with rigid to semi ridged hoses with spiral reinforcements. Ideal applications are in HVAC, construction, and agricultural field.

# VtX Quick Lock Clamp

VtX is our hose clamp for ventilation purposes. With its open able quick locking housing it is ideal for assembly in difficult areas and very large diameters, such as ventilation pipes. With rounded band edges and a smooth band surface this clamp is very gentle to the hose. The VtX is available in 9 mm bandwidth, and several materials from zink plate to different stainless steel grades so you can find the perfect combination to fulfill the requirement of the application. Ideal applications are in HVAC, construction, and the agricultural field.

# CCT House Scandinavia AB

With a long experience in the clamping & connecting industry and cooperations with global actors, CCT House understood that in today's rapid changing market, there was a need of a partner that really could supply the right parts for the customer's needs. And sometimes there is a need of unconventional products that has not even been produced before. That's why CCT House not only supplies what we produce. Having different levels of quality/performance for better complying with the asked performance, helps our customer to do significant cost savings and get the right product for each application. With that said, we do not compromise with the product quality itself, all of our products are produced according to ISO9000/ISOTS16949 and comply with relevant standards. You can really trust that CCT House always deliver the right quality and performance level.

CCT House have the widest range of clamping and connecting products for almost all levels of demand. Products that fulfill the customers requirements with the right performance level and at the same time, save costs without risk of getting low quality.
